

Information Hiding Conference 2010, Calgary, Alberta, Canada.

Web: <http://ih2010.cpsc.ucalgary.ca>

e-mail: ih2010@ucalgary.ca

Conference Date: June 28 - 30, 2010.

12th Information Hiding Conference, University of Calgary, Alberta, Canada

Call for Papers

For many years, Information Hiding has captured the imagination of researchers. Digital watermarking and steganography protect information, conceal secrets or are used as core primitives in digital rights management schemes. Steganalysis and forensics pose important challenges to investigators; and privacy techniques try to hide relational information such as the actors' identities in anonymous communication systems. These and other topics share the notion that security is defined by the difficulty to make (or avoid) inference on certain properties of host data, which therefore has to be well understood and modeled.

Current research themes include:

- Anonymity and privacy
- Covert/subliminal channels
- Digital rights management
- Fingerprinting and embedding codes
- Multimedia and document security
- Multimedia forensics and counter forensics
- Novel applications of information hiding
- Other data hiding domains (e.g. text, software, etc.)
- Security metrics for information hiding
- Steganography and steganalysis
- Theoretical aspects of information hiding and detection
- Watermarking (algorithms, security, attacks)

Important Dates -

Abstract Deadline:

March 13th 2010

Full Papers Due:

March 20th 2010

Notification of Acceptance:

May 10th 2010

Pre-proceedings Copy:

May 30th 2010

Registration Deadline for Authors:

May 28th 2010

Final Version:

July 31st 2010

Instructions to Authors

Interested parties are invited to submit novel papers on research and practice which are related to the above areas of interest. Claims about information hiding technology, such as robustness or steganographic security, must be backed by strong evidence in the paper (such as mathematical proofs, statistical modeling or extensive testing). Submissions must not substantially overlap papers that have been published or that are simultaneously submitted to a journal or a conference with proceedings. Submissions should follow the Springer Lecture Notes in Computer Science format and should be no more than 15 pages including references and well-marked appendices. Accepted papers will appear in the proceedings published by Springer Lecture Notes in Computer Science. Authors can submit their manuscripts online on the conference website where detailed instructions are provided. The submitted papers should be anonymized avoiding obvious references.

Conference Date: June 28 - 30, 2010.

12th Information Hiding Conference, University of Calgary, Alberta, Canada

General Chair:

Philip W.L. Fong, University of Calgary, Canada

Program Committee:

Rainer Böhme, International Computer Science Institute, Berkeley, USA **(Co-Chair)**

Rei Safavi-Naini, University of Calgary, Canada **(Co-Chair)**

Ross Anderson, University of Cambridge, UK

Mauro Barni, Università di Siena, Italy

Patrick Bas, CNRS, France

François Cayre, GIPSA-lab/Grenoble INP, France

EE-Chien Chang, National University of Singapore, Singapore

Christian Collberg, University of Arizona, USA

Ingemar J. Cox, University College London, UK

Gwenaél Doërr, Technicolor, France

Hany Farid, Dartmouth College, USA

Jessica Fridrich, SUNY Binghamton, USA

Teddy Furon, INRIA, France

Neil F. Johnson, Booz Allen Hamilton and JJTC, USA

Stefan Katzenbeisser, TU Darmstadt, Germany

Darko Kirovski, Microsoft Research, USA

John McHugh, University of North Carolina, USA and RedJack, LLC.

Ira S. Moskowitz, Naval Research Laboratory, USA

Andreas Pfitzmann, TU Dresden, Germany

Ahmad-Reza Sadeghi, Ruhr-Universität Bochum, Germany

Phil Sallee, Booz Allen Hamilton, USA

Berry Schoenmakers, TU Eindhoven, The Netherlands

Kaushal Solanki, Mayachitra Inc., USA

Kenneth Sullivan, Mayachitra Inc., USA
